LED FLASHER RELAY

COMING SOON

Changing your indicator lights for LED ones? Once you replace your regular bulbs by LED indicators, the resistance is very small compare to the original flashers. Therefore, the bike couldn't identify whether the flashers are installed or not so they will not flash normally. Avoid this problem by using our simple flasher relay. Install only one Koso relay for all 4 LED indicator lights compare to the other brands on the market which require 1 per indicator light.

LED light bar

Give a nice and unique look to your vehicle with those high quality LED bar.
Built to last a minimum of 10,000 hours, those lights are also water resistant.
